**FROM FOUNDER/ DIRECTOR' DESK:**

It gives me immense pleasure to present AGRAGATI's Annual Report for the financial year 2022-23

In the last year, most of our work focussed on reaching the unreached communities throughout the Jharkhand and selected areas of West Bengal. Our programmes continued to reach out to women and girls, especially from the marginalised communities in the poorest and remotest regions, to make a positive impact in their lives and livelihoods.

Lasting change can only become a reality when underlying causes of poverty and social exclusion are addressed in a holistic manner. AGRAGATI's work in the past year around inclusive governance-local administration, which holds duty bearers accountable to project beneficiaries on the ground, is an attempt to bring about a more meaningful and long-term positive change. Community-based collective actions which encourage women and girls to hold authorities responsible and accountable to deliver services, are reaping a rich dividend. This annual report is a compilation of our work at the grass roots and the rural marginalised aspiration district of West Bengal and Jharkhand.

I would especially like to thank our Executive Members for their contribution, particularly when we needed to find solutions to development challenges. I am grateful for the respected donor, funding agency, support of our partner who have helped us along the way, and we look forward to continuing this journey towards sustainability together. Furthermore, we have recognized the importance of good governance and effective management practices in achieving sustainability.

Lastly, our all programmes and projects are intended to explore new territories and opportunities such as educates children about their entitlements and protection, financial inclusion, better livelihood and social inclusion. These initiatives expand our horizons and allow us to discover new ideas and thought of growth and socio-economic development.

As we move forward, we remain committed to our mission of providing quality services and activities to our communities. I believe that commitment and dedication is the key to achieving this goal, and AGRAGATI will continue to work tirelessly towards that end.

Finally, I would like to thank all community members of the AGRAGATI family, peer organisations and other stakeholders who continue to support and believe in our work.

Founder Secretary

(Mr. Tapan Mandal)

### About the Organisation

Ever since inaugurated-on 19<sup>th</sup> September 1979, AGRAGATI has been working laboriously and tirelessly with one single goal - eradicating poverty. AGRAGATI started as a small group of friends with similar motivations under vivacious leadership of the dedicated social worker Mr. Tapan Kumar Mandal, who was moved to action by the dreadful predicament of flood effected people in West Bengal in 1978 and was inspired to take action to improve their socio-economic conditions.

with experience in numerous social upliftment projects and have been growing ever since! With extensive research, mapping and several rounds of discussion with experts to eradicate poverty, AGRAGATI's aims to build self-reliant communities by providing necessary skill development training and facilitate livelihood opportunities to those who need the most. While preserving the sustainability of our projects, AGRAGATI strongly believes that the real development is how much the poor get richer.

Through AGRAGATI, we reach out to the low-income communities from the most backward parts of the West Bengal and Jharkhand and provide them a platform where they can raise their voice for their development. We believe that the beneficiaries of AGRAGATI can positively change society.

AGRAGATI believe that poverty is not a financial problem, it's a lack of opportunity and guidance within community. Our project is designed to understand people's problems and help them in the best possible ways. In order to bring about socio-economic transformation for unreached people such tribes, ST, SC, and weaker sections, AGRAGATI has enlisted the aid of a number of committed social activists, social workers, local community workers/leaders, and national/international organisations.

Building Governance system, PRI institutions and Gram Sabhas to ensure effective public delivery services to the local people has been one of our main areas of focus. The other has been improving the lives and welfare of poor and tribal people and other vulnerable communities, with a particular focus on tribal women and low economic group.

AGRAGATI is structured exclusively allows it to operate at all stages of the value chain, including implementing village-level programmes, collaborating with the Government, multilateral and bilateral organisations, and civil society organisations to improve and enhance their patterns of livelihood, as well as leading initiatives to support, educate and influence policy.
